Rugrats created by Klasky Csupo. SpongeBob SquarePants created by Stephen Hillenburg. December 21, 2020 Version 2.26.2 - Improved tutorial- Multiple visual improvements- Bug fixes I loved playing this game, but sometimes the gameplay can get too boring. When I installed this app, I was expecting a fun combat experience, but there are two big flaws with this game: its combat system and its online system. I'm not saying that the controls are broken or anything by this issue, but I feel like there's great potential in every set of character movement. Let's start with SpongeBob for example, why dose he doesn't use his spatulas or bubblestick in his attacks? Why can't Danny Phantom go ghost? Why can't Zim use his laser gun? Why can't Rocko use his screwdriver? I can go on and on about how the basic characters move together is. moreover, each character (not counting their last moves) plays the same thing, what the what! The other flaw I will now point out about this game is that you fight bots, not real players. How do I know? Simple answer: there is no matchmaking system and there is a pause button at the top on the screen. If developers really want to improve their game to make it the best it can be like they said, then solve these problems to add to gaming experiences. If the development team listens more about what fans have to say about SuperBrawl Universe, this game would have been one of the best fighting games to get on mobile devices. But not now, unfortunately. In conclusion, I will give this game a solid-**** I love this game. It's so fun and easy to play! But there are some things that are worrying, I would go over if you get pieces in a box for a character u do not have or pieces collected for those you have, it is very slow and not really easy for you to get anything .. This just makes it difficult to get more characters and make the game boring. Then I want to go on the bugs. When I kept the opponent, he died instantly. Another thing is that when I a match sometimes the character does not appear. Also sometimes the character is not in the middle. And the last bug is that when I hit or use my super and the opponent is defeated, they don't go down as they're supposed to. Ok now I would like to see better events like the subject of the event for some characters. It may have an end date. For an event about this maybe u should have a special campaign this way, it can make the game a lot of fun. The last thing I want is some new characters. There are some I'd like to see like Jimmy Neutron and Sheen. I'd like to complete the Baby Trio for Rugrats. Let's add Chucky are we going because I saw it in the prologue. I'd also like to see a hero vs. villain theme. I just downloaded this game Saturday and I love the whole nicktoons experience and everything, but there are a lot of problems with the game. Most battles are unfair and they are full of fake coins when you are in a bot's combat challenge mode. Most bots in challenge mode are super buffed and they take a lot of hp from you with a single shot while the hp bots takes several shots. it's tiring and disturbing about how when you watch an ad for a while for energy and when it's done, it drags on and you don't get it, even if the ad has finished playing that some time I'll never come back. The other problem is the faulty controls because it is sometimes lagging to the point where you can't block or attack while you're playing. The last thing is when you get character cards. What's really worrying about this is that the game chooses what it wants you to get it should be the other way around. I have a lot of character cards for characters I don't use and I'm going to have to use this character because I can't rank my favorite character. I would give this game five stars once the problem is solved. Thank you Hi there! Sorry about that! For 3-vs-3 Brawls, you need to bring your strongest characters or level up first! Regarding your other problems, please contact us directly as we may need additional information on the device so we can help you more. Please press the Setting button, then press CONTACT US to send us a message and we'll be happy to help.
